

Standing with Israel

Bm G D A
We have wandered very far from the place of our origin
Bm G D
Forgotten lies the memory of our roots
Bm G D A
Our history has painted grotesque pictures of our haughtiness
Bm G D
Persecuting those who were the first to know You

G A D Bm
Following Your call they left their world behind
Em A Bm B
Carrying the light of Yeshua to the world
G A D Bm
Showing us the way and bringing us new hope
Em A Bm
Your people have surely carried their cross

Bm G D A
Now today our eyes are to behold Your awesome power
Bm G D
Your name is being glorified once more
Bm G D A
Prophecies You've spoken through the prophets of ancient Israel
Bm G D
Are coming to fulfillment right in front of our eyes

G A D Bm
Following Your call they're leaving their world behind
Em A Bm B
Carrying the burden of scattered out casts
G A D Bm
You're showing the way and leading them back home
Em A Bm
Binding up their wounds inflicted by us.

Am D
O have mercy on us
Am D
And forgive us for being blind to Your purposes
Am
Have mercy on us
C G A
And forgive us for hurting those close to Your heart

D
Today we stand
G
Side by side now
D G
Finally understanding why You rejected them for a while
D
It was for our sake
G
That we might know you
D G
And be brought into the fold, grafted into the vine of old

A G
Now once again You've turned in mercy to Your chosen people
A G
Bringing them into the land as You promised so long ago

D G D G
Lead them home, be their God, reveal Your love and Your salvation
